

## RIVER RAFT & KAYAK ADVENTURES

Hundreds of years ago, the ancient KA-HA-TENI Indian tribe of the Rio Salado area hid their valuable and massive treasure somewhere along the river. Shortly after, the tribe mysteriously vanished into history. Luckily for your team, the tribe has left a map and clues to the whereabouts of the treasure trove.

**How it works:** A combination of treasure hunt and scavenger hunt, your teams will learn the story of the ancient Indians, the KA-HA-TENI (meaning "Native" in Navajo). They will receive clues heading to the treasure and a leather map to assist them on their journey. Periodically along our journey downriver we will stop to compete in team challenges. Spins, tug-a-wars, races, and obstacle runs will be required in these light hearted and fun activities. Only the teams who work together will survive.

The entire event takes place on the Salt River, so guests still have the opportunity to paddle the raft, see wildlife, and experience the Sonoran desert's unique riparian environment. Guides are always present and can be very helpful to their teams for the price of a golden nugget, given to each team as a bribe for their guide at the beginning of the expedition.
